

Getting Started

Last Modified on 17/07/2025 4:26 pm BST

1. Power on the Terminal and Connect to the Internet

Make sure your payment terminal is turned on and connected to the internet (Wi-Fi or mobile data).

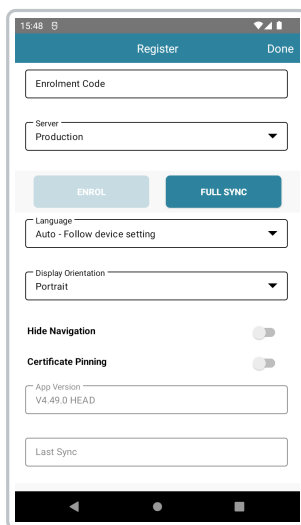

2. Open the Register App

Once connected, tap the **Register** icon on the terminal's home screen.

3. Enter the Enrolment Code

You'll be asked to enter an **enrolment code**. This code should have been provided by your **Solution Provider**.

A screenshot of the 'Register' app interface on a mobile device. The screen has a teal header with 'Register' and 'Done' buttons. Below the header is an 'Enrolment Code' input field. Underneath is a 'Server' dropdown menu currently set to 'Production'. There are two buttons: 'ENROL' (light blue) and 'FULL SYNC' (teal). Below these are 'Language' and 'Display Orientation' dropdown menus, both set to 'Auto - Follow device setting'. There are two toggle switches: 'Hide Navigation' and 'Certificate Pinning', both currently turned off. At the bottom, there is an 'App Version' field showing 'V4.49.0 HEAD' and a 'Last Sync' field.

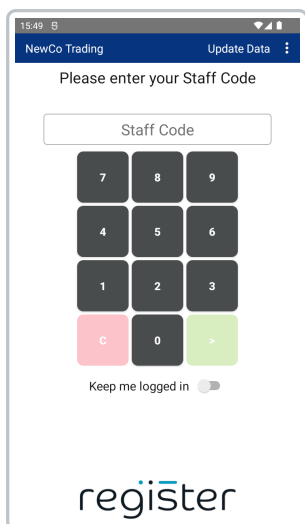

4. Enrol the Terminal

After entering the code, tap the **Enrol** button. The terminal will sync with your account—this may take a few moments.

⚠ **Important:** Your terminal must stay connected to the internet during this step.

5. Log In with Staff Code

When enrolment is complete, a login screen will appear. Enter the **staff code** sent to you by your Solution Provider to start using the terminal.

☒ You're now ready to start accepting payments!
