

# Taking Cash Payments

Last Modified on 06/01/2026 11:44 am GMT

Processing a cash sale on your terminal is quick and simple. Just follow these steps:

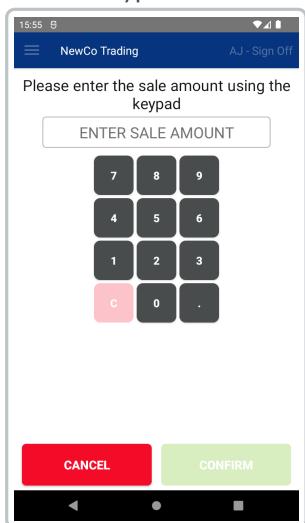

## 1. Log In and Start a Sale

Once logged in, tap the **SALE** button on the home screen.

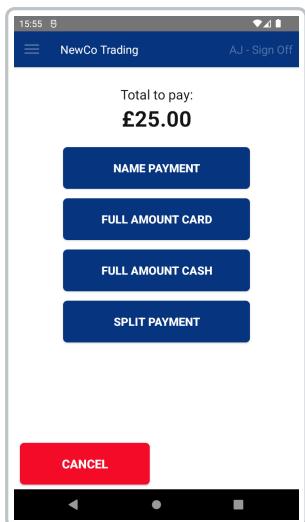

## 2. Enter the Sale Amount

Use the keypad to enter the total amount, then tap **CONFIRM**.

## 3. Select Payment Method

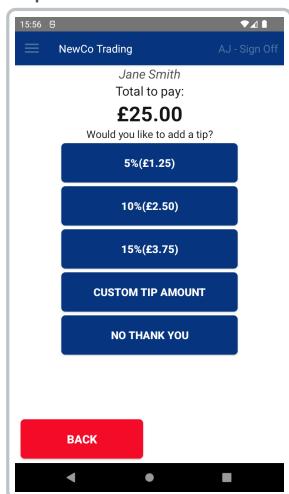

Tap **FULL AMOUNT CASH** to continue with a cash payment.

#### 4. (Optional) Add Gratuity

If prompted (depending on your setup), you can:

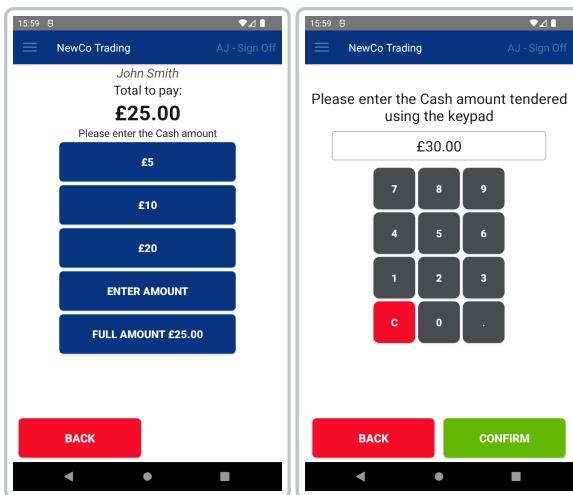

- o Select a **gratuity amount**, or
- o Tap **NO THANK YOU** to skip this step.

#### 5. Enter the Cash Amount Received

You'll now be asked how much cash the customer is handing over. You can:

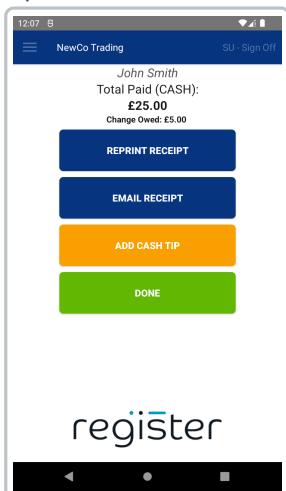

- o Tap a **quick tender button** (e.g. 5, 10, 20)
- o Tap **ENTER AMOUNT** to enter a custom value
- o Tap **FULL AMOUNT** if the customer paid the exact amount

## 6. Review the Transaction Summary

The **Transaction Summary** screen will display:

- Any **change due** to the customer
- Options to **print or email a receipt**
- Option to **record a cash tip**

## 7. Finish the Transaction

Tap **DONE** to complete the sale and return to the main screen.

The **DONE** button will display a **60-second countdown timer**.

If no action is taken, once the countdown reaches **0**, the system will automatically select **DONE** and return you to the **main screen**, ready for the next transaction. This helps keep the device ready to use and avoids it being left on the summary screen.
