 How to set Auto Logout After Each Transaction

Last Modified on 04/07/2025 4:50 pm BST

You can set your system to automatically log out staff after each transaction. Follow these steps to enable this setting:

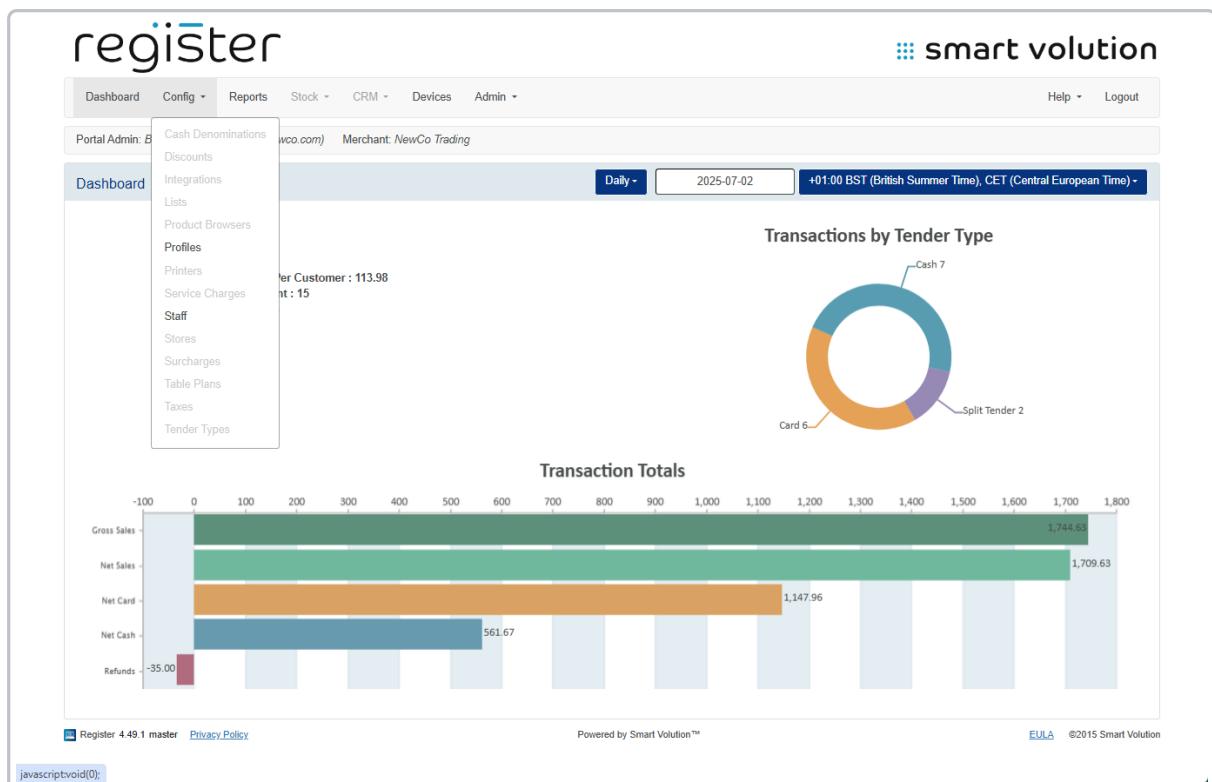

② On the Web Portal:

1. Log in to the **Web Portal** using the credentials supplied by your **Solution Provider**.

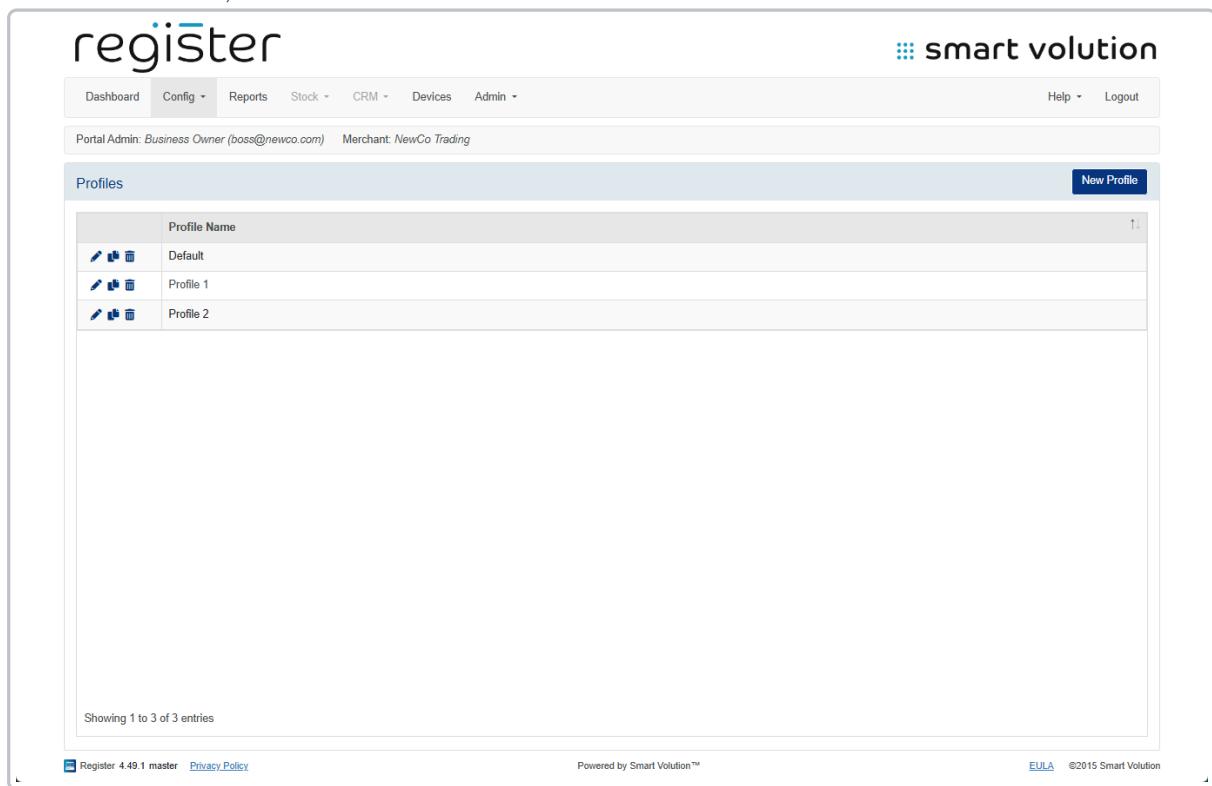

The screenshot shows the 'Login' page of the Web Portal. It features a light blue header bar with the word 'Login'. Below this is a form with two input fields: 'Username' and 'Password', both marked as 'Required'. A 'Submit' button is located to the right of the password field. Below the form, a note states: 'The Web Portal is best viewed using the Google Chrome™ browser.' At the bottom of the page, there are three links: 'Register 4.49.1 master', 'Powered by Smart Volution™', and '©2015 Smart Volution'.

2. Click **Config** in the top menu.

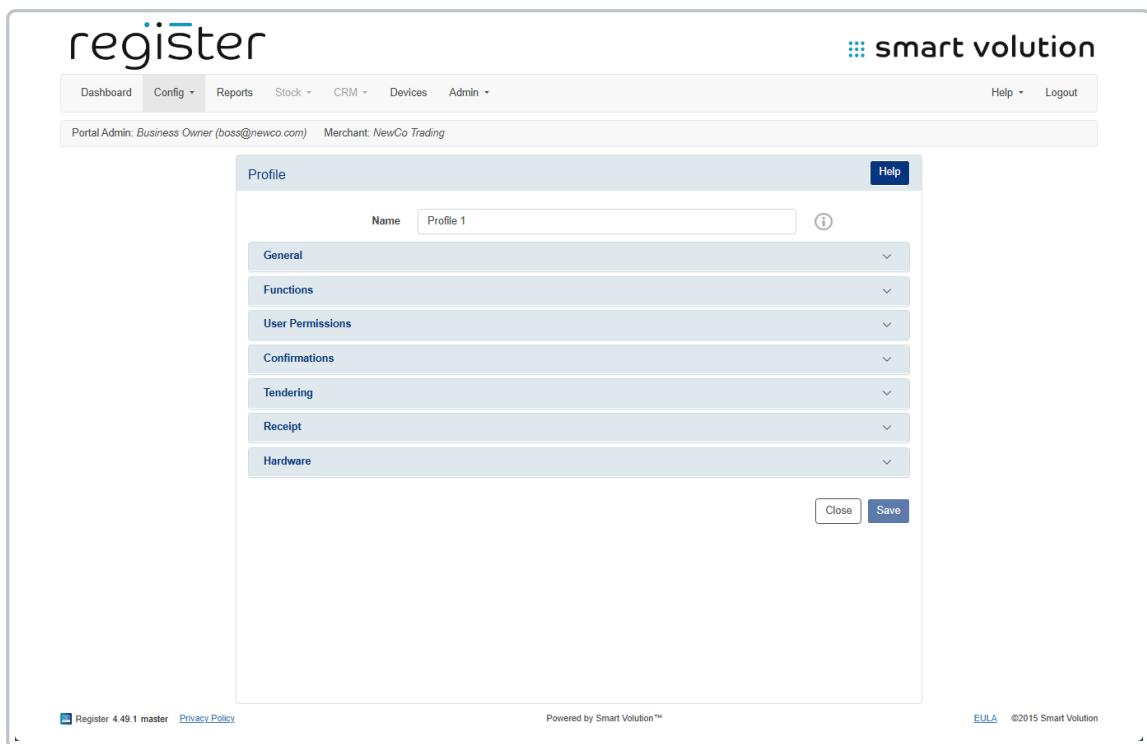

3. From the sub-menu, click **Profiles**.

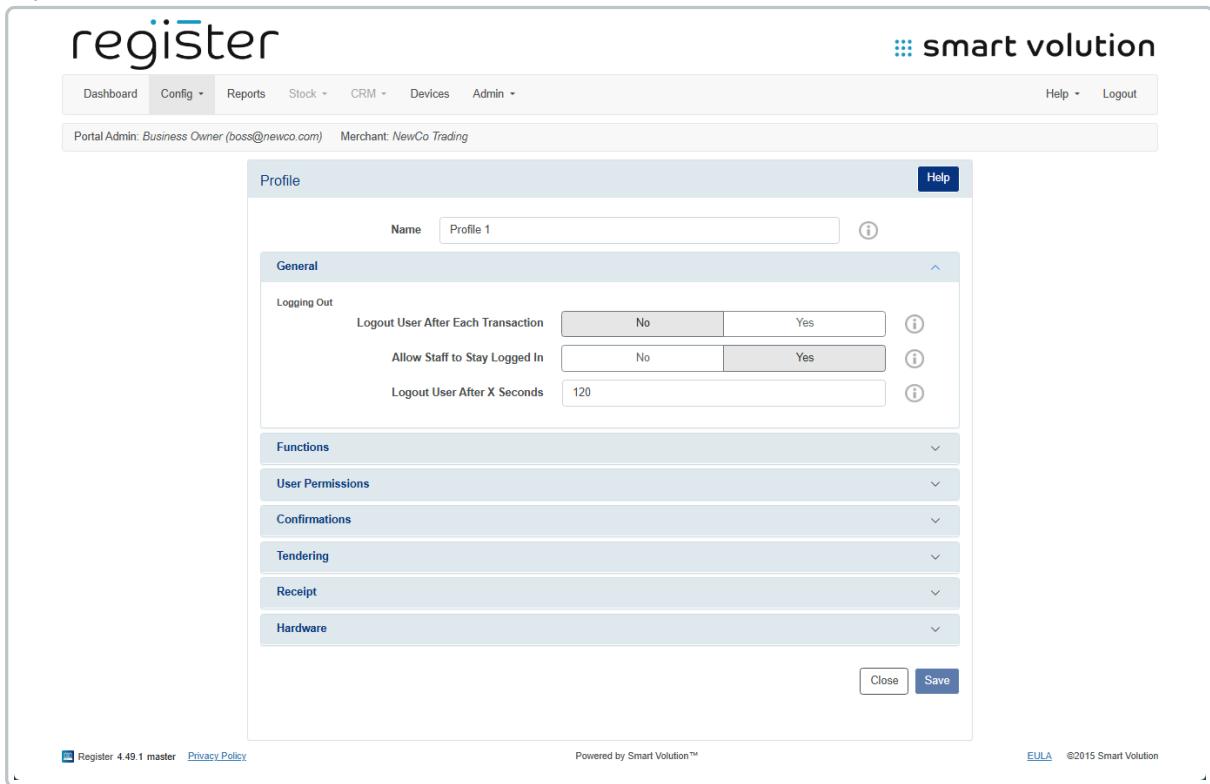

4. Locate the Profile assigned to your device and click the **Edit (✎)** icon.

- Not sure which profile? You can verify it under the **Devices** tab.

5. Expand the **General** section.

6. Set **Logout User After Each Transaction** to **Yes**.

7. Click the **Save** button at the bottom of the screen.

② **On Your Device:**

8. On the login screen, tap the **Update Data** button (top-right corner) to apply your updated configuration.
