

?? How to Disable the Ability to Name Transactions

Last Modified on 07/07/2025 1:45 pm BST

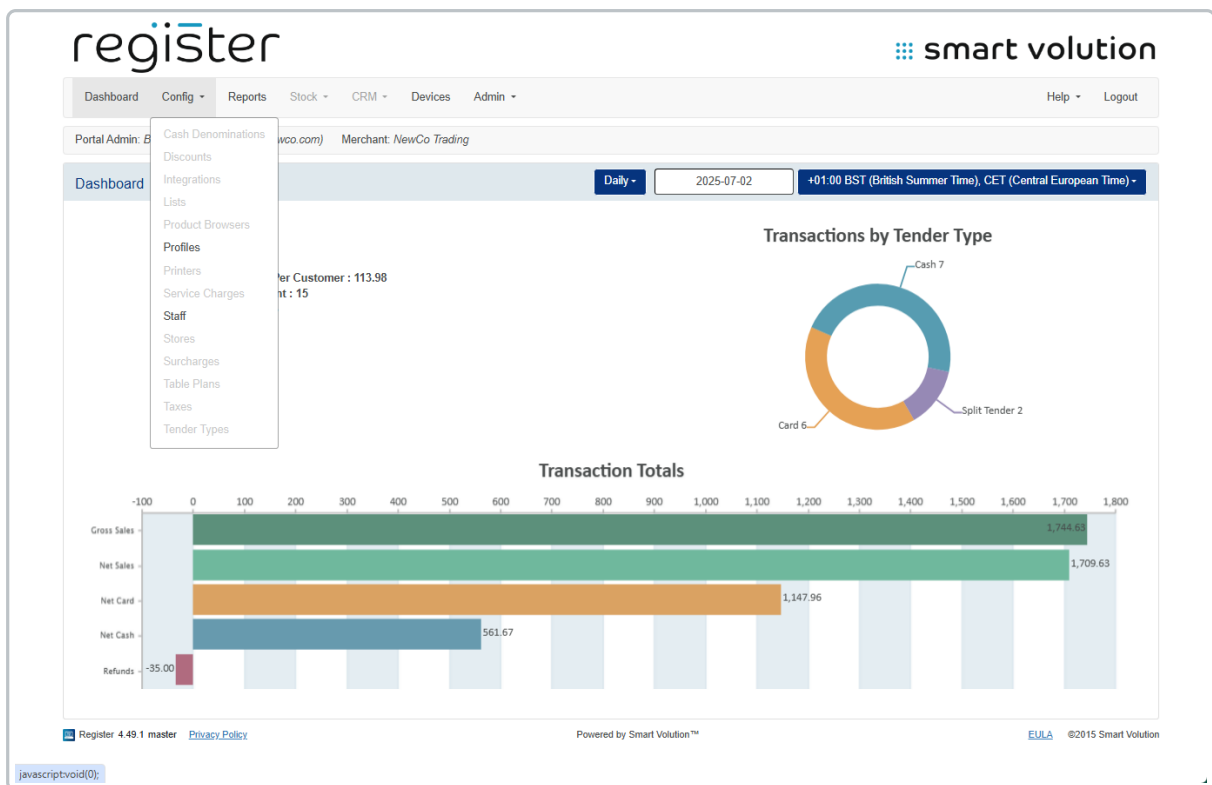

Your system allows staff to name transactions, helpful for identifying sales or refunds later using customer names, invoice numbers, job types, or references. If you prefer to turn this feature off:

? On the Web Portal:

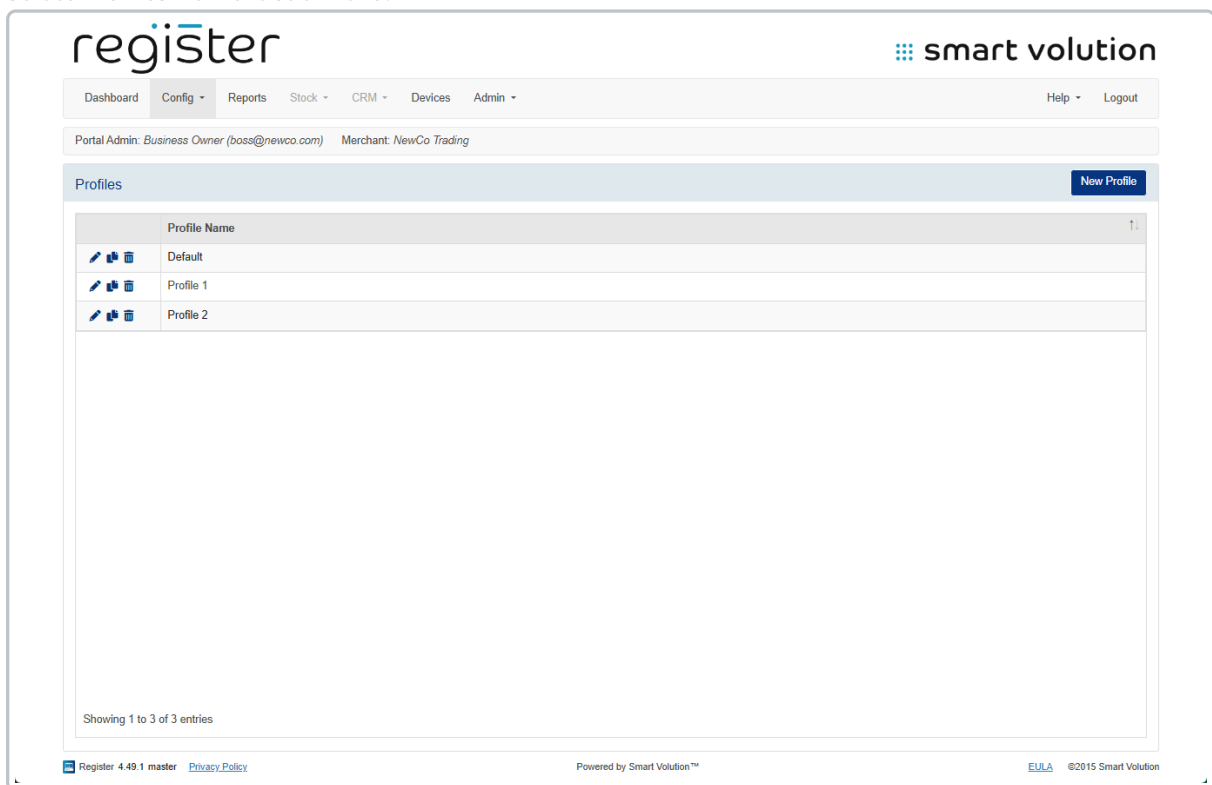

1. Log in to the **Web Portal** using the credentials provided by your **Solution Provider**.

A screenshot of a web portal login interface. At the top, there is a light blue header with the word "Login" in a small, dark font. Below the header, the login form is centered. It contains two labels, "Username" and "Password", each followed by a text input field. Above each input field, the word "Required" is displayed in a small, light gray font. To the right of the "Password" input field is a blue "Submit" button. Below the input fields, a small line of text reads "The Web Portal is best viewed using the Google Chrome™ browser." At the bottom of the page, there is a footer with three items: a small blue icon followed by "Register 4.49.1 master", the text "Powered by Smart Volution™", and "©2015 Smart Volution".

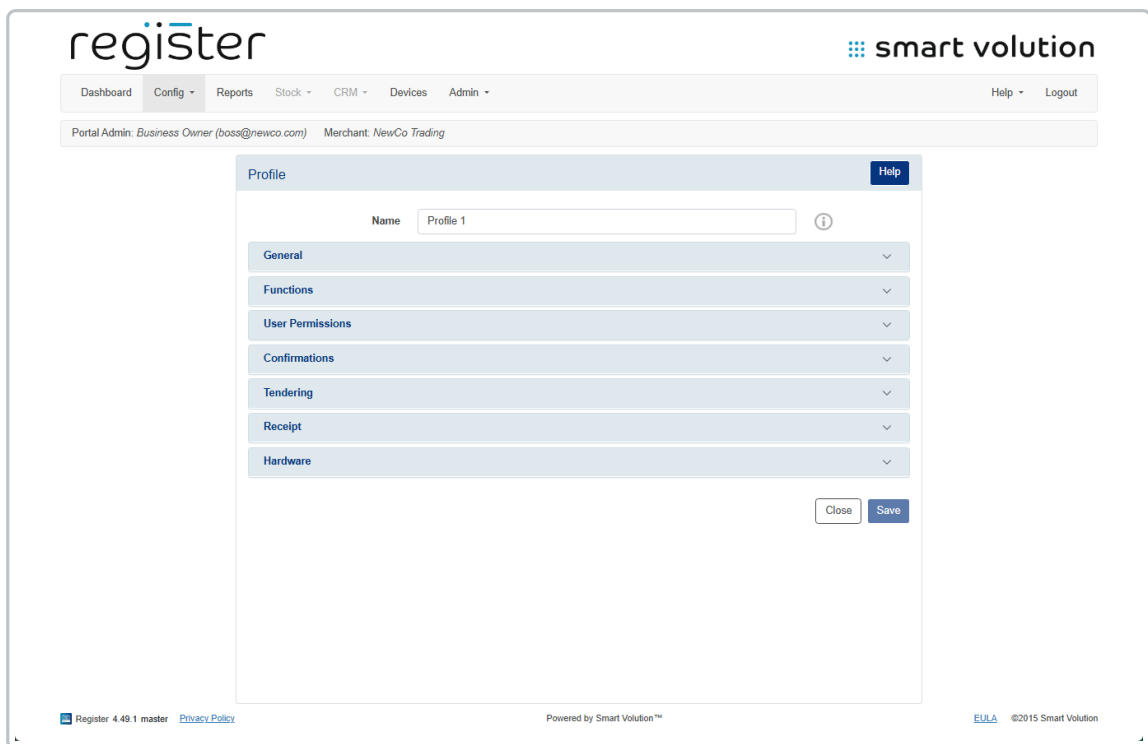

2. Click **Config** in the top navigation bar.

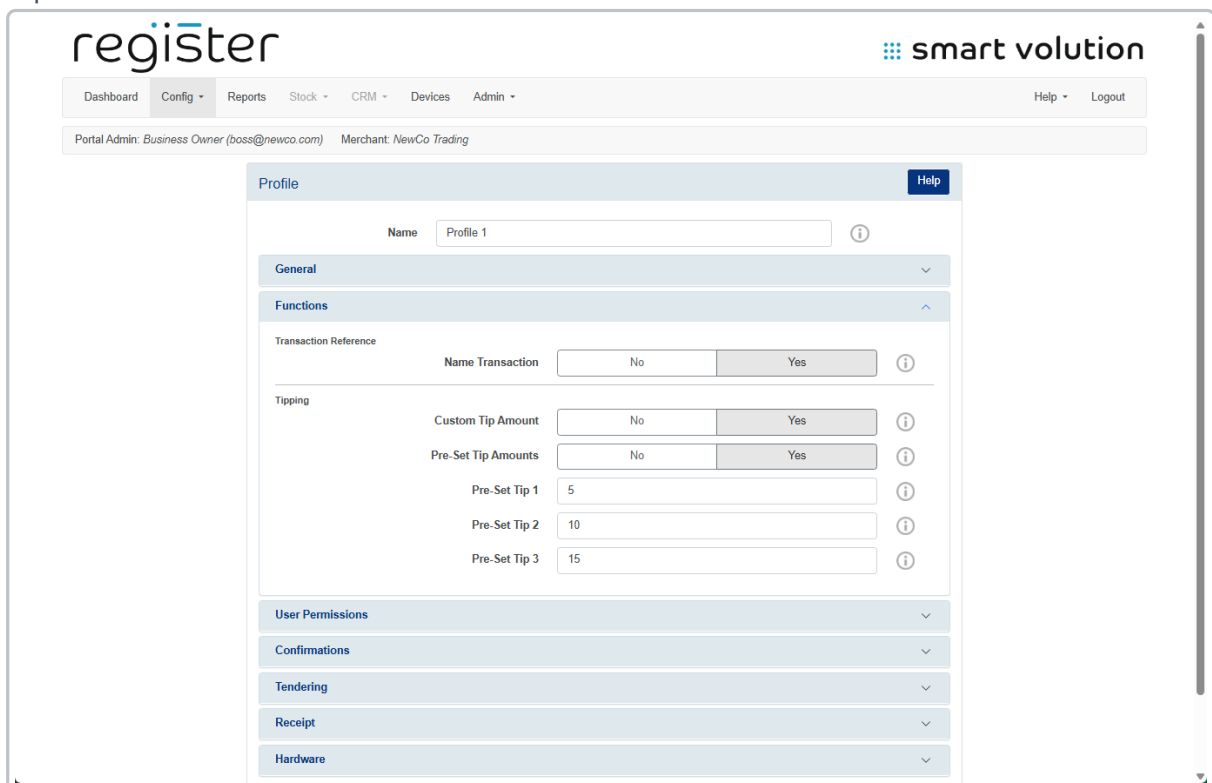

3. Select **Profiles** from the sub-menu.

- Find the Profile assigned to your device and click the **Edit** (🔧) icon.
 - You can verify which profile is assigned under the **Devices** tab.

5. Expand the **Functions** section.

6. Set **Name Transaction** to **No**.

7. Click **Save** at the bottom of the screen.

? On Your Device:

8. On the **login screen**, tap the **Update Data** button in the top right corner to apply the updated configuration.
