

# ?? How to turn off Cash Payments

Last Modified on 07/07/2025 1:58 pm BST

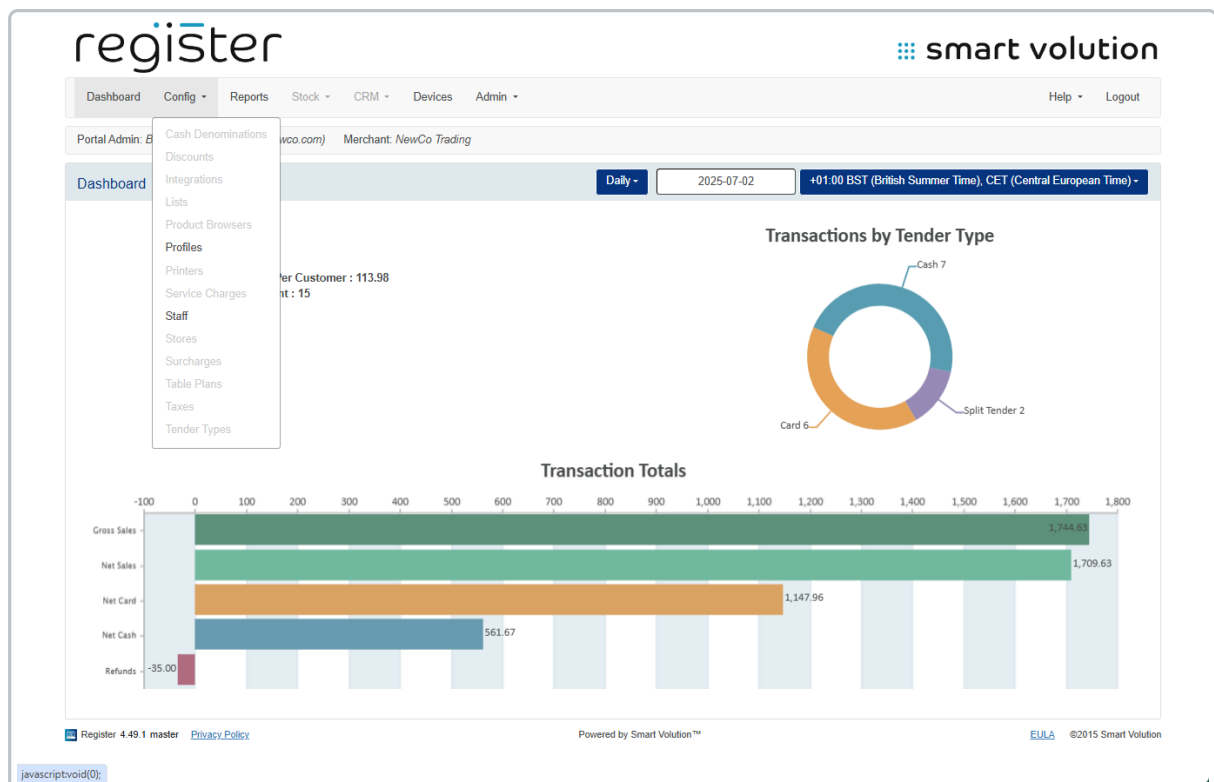

By default, your system supports both **cash** and **card** payments. If you operate as a **card-only business**, you can easily disable the ability to process cash transactions.

## ? Disable Cash Transactions via the Web Portal:

1. **Log in** to the **Web Portal** using the credentials provided by your **Solution Provider**.

A screenshot of a web portal login interface. At the top, there is a light blue header with the word "Login". Below this, there are two input fields: "Username" and "Password", both with "Required" text inside them. To the right of the "Password" field is a blue "Submit" button. Below the input fields, there is a small line of text: "The Web Portal is best viewed using the Google Chrome™ browser." At the bottom of the page, there are three small text elements: "Register 4.49.1 master" on the left, "Powered by Smart Volution™" in the center, and "©2015 Smart Volution" on the right.

2. Click **Config** in the top navigation bar, then select **Profiles** from the submenu.

The Profiles page shows a table of profiles with the following data:

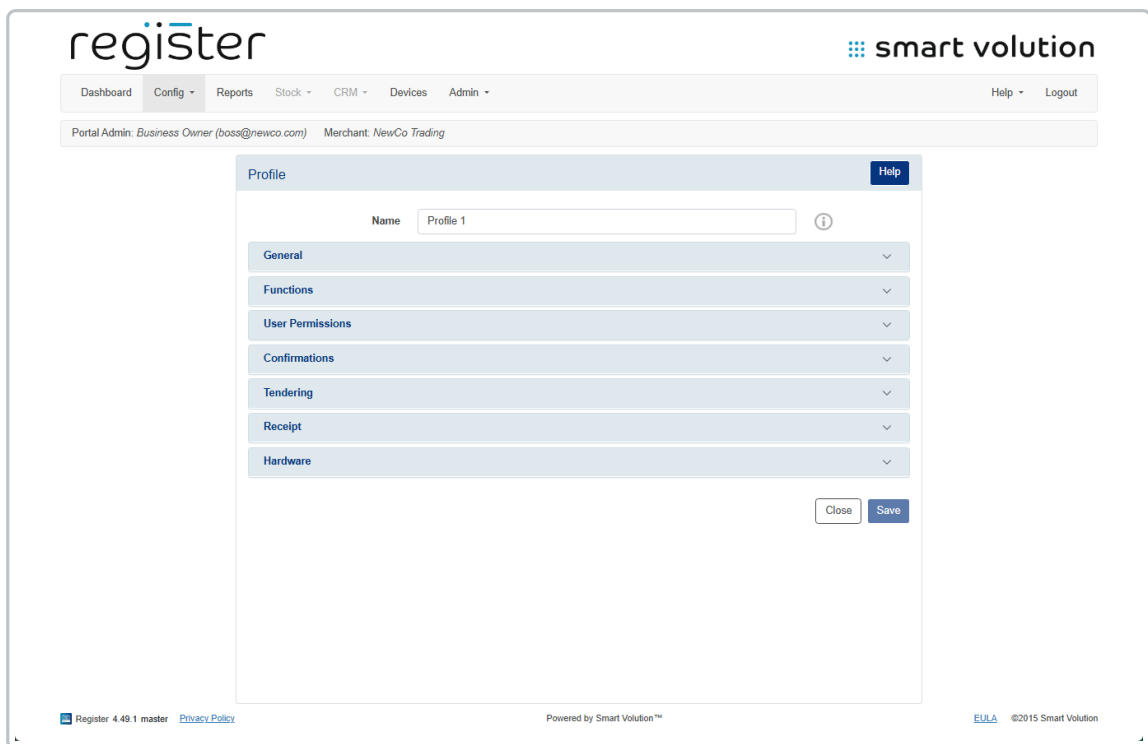

Profile Name
Default
Profile 1
Profile 2

Showing 1 to 3 of 3 entries

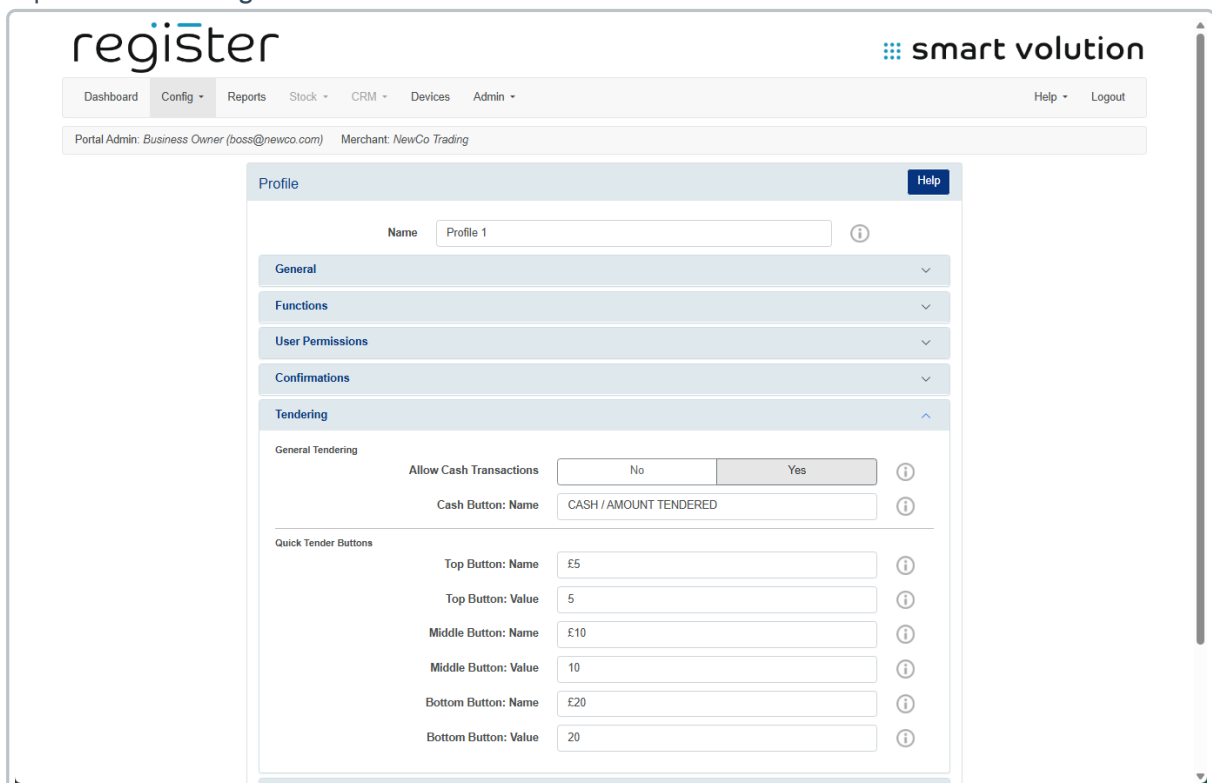

The footer includes: Register 4.49.1 master, Privacy Policy, Powered by Smart Solution™, EULA, ©2015 Smart Solution.

3. Identify the Profile assigned to your device and click the **Edit** (🔧) icon.

- You can confirm your device's assigned Profile by checking the **Devices** tab.

#### 4. Expand the **Tendering** section.

#### 5. Set the **Allow Cash Transactions** option to **No**.

#### 6. Click the **Save** button at the bottom of the screen to apply your changes.

#### **?** Apply Configuration Changes on Your Device:

#### 7. On your device's **login screen**, tap the **Update Data** button (top-right corner) to download and apply the new settings.
