What is Register Pay?

Last Modified on 24/09/2025 4:12 pm BST

Register Pay is a licence type within the **Register EPOS** family.

It transforms your payment terminal from being just a “card machine” into a powerful business tool, giving you access to features and insights that go far beyond the standard payment application. With Register Pay, you can streamline operations, boost efficiency, and gain centralised reporting—all while laying the groundwork to seamlessly upgrade into a full EPOS system when you’re ready.

?

What you can do with Register Pay

- **?** **Name your payments** – Add a name or reference (customer, invoice, job, etc.) to each payment.
- **?** **Integrated card payments** – Enjoy seamless integration with your payment terminal.
- **?** **Record cash payments** – Track and report on both cash and card sales.
- **?** **Manage gratuities** – Accept and report on tips, whether preset or custom amounts.
- **?** **Split bills** – Quickly divide bills equally or by custom amounts without needing a calculator.
- **?** **Manage staff** – Track staff activity, tips, and control access levels.
- **?** **Digital or printed receipts** – Provide simple receipts with no complex setup.
- **?** **Self-setup** – Customise your solution from the Web Portal without needing support.
- **?** **Accounting integrations** – Automatically send your daily takings to **Xero**, **Sage**, **QuickBooks**, or **FreshBooks**.
- **?** **Back Office Web Portal** – Centrally manage configuration, reporting, and exports.
- **↑** **Seamless upgrades** – Part of the **Register ecosystem**, with easy upgrades to **Lite**, **Core**, or **Plus** EPOS licences.

?

Who supports Register Pay?

Register Pay is provided and supported by your **Solution Provider** (often the same company who supplied your payment terminal). They’re your main contact for setup, support, upgrades, and feature queries.
